

**Application for Notice to Engage in an Activity
in a Vulnerable Area for a Municipal Drinking Water Supply**
Under Part IV of the *Clean Water Act, 2006*, Regulation of Drinking Water Threats

Under the *Clean Water Act (Act)*, a drinking water threat is “an activity or condition that adversely affects or has the potential to adversely affect the quality or quantity of any water that is or may be used as a source of drinking water”. The *Act* lists the specific activities that are a drinking water threat, if undertaken in select areas and under certain circumstances.

The Risk Management Official for the Otonabee-Peterborough Source Protection Area will review this Application to determine if any associated activities (existing or proposed) may represent a significant threat to the source of a municipal drinking water supply and if any policy(s) contained in the Trent Source Protection Plan (SPP) may apply. The SPP contains policies intended to manage drinking water threat activities and protect municipal drinking water sources.

By Agreement, the Otonabee Region Conservation Authority (ORCA), acting under its authority as the Otonabee-Peterborough Source Protection Authority, is an Agent of the following municipalities for the duties and enforcement responsibilities under Part IV of the *Act*, the Regulation of Drinking Water Threats, for affected lands in the Townships of Asphodel-Norwood, Cavan Monaghan, Douro-Dummer, Havelock-Belmont-Methuen, Otonabee-South Monaghan, Selwyn, Municipality of Trent Lakes and the City of Peterborough.
