

PLEASE READ THROUGH THE LIST OF
REQUIREMENTS CAREFULLY.

What is Pre-Consultation?

Prior to making an application for Planning Approval, a pre-consultation meeting with staff is required. The purpose of a pre-consultation meeting is to provide the applicant with an opportunity to present and review the proposed application with staff, to discuss potential issues, and determine the required elements and materials to be submitted with the application for it to be considered “complete” by Municipal staff.

Pre-Consultation Process

The applicant will submit the completed ‘Request for Pre-Consultation Form’ to the Building and Planning Department. The Junior Planner will coordinate a pre-consultation meeting within 10 business days of receipt of the request form. The Junior Planner, at his/her discretion will invite other staff members and outside individuals or agencies to the meeting.

The objective of the pre-consultation meeting is to:

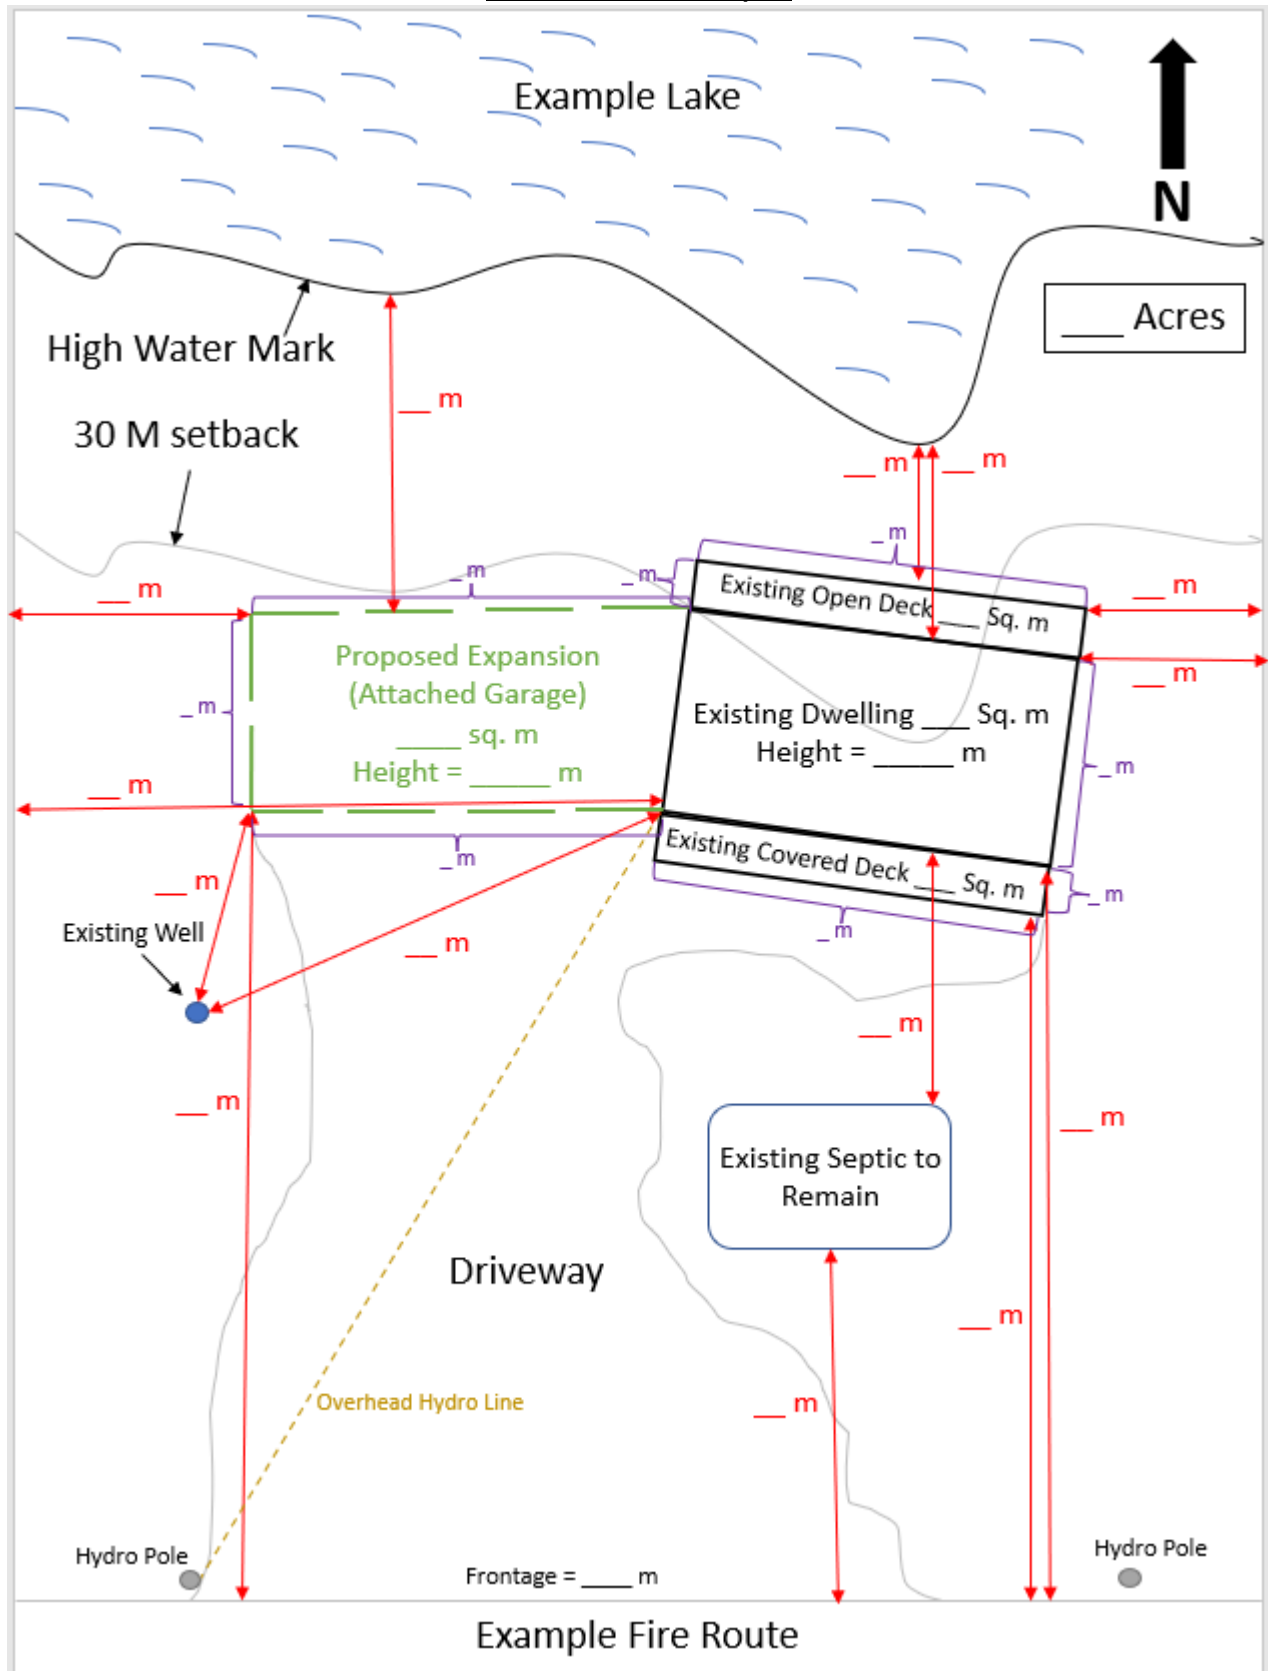

- Identify any potential issues upfront and to identify any matters that could affect the approval process.
- To identify development and design considerations.
- To identify required reports / studies and drawings to be submitted with a complete application.
- To identify potential application fees and approximate timelines associated with the application process.

The pre-consultation meeting is attended by the applicant / agent and Municipal and agency staff and is intended to be an open dialogue between staff and the applicant / agent. Staff may ask questions of the applicant / agent and will provide verbal comments regarding the proposal. Following the pre-consultation meeting, Planning staff will follow up with a letter that summarizes all the comments received from Municipal and agency staff, as well as provide the Municipal requirements to submit a “complete application” to the Municipality.

Submission Requirements

- Completed Pre-consultation Request Form
- Proof of ownership or authorization from the property owner
- A Site Plan – which includes (if applicable):
 - North Arrow
 - Dimension of property (frontage / area) and delineation of lot lines.
